I understand that:

- The student is responsible for understanding when his/her choice of schedule will result in tuition charges (current tuition rates apply per credit). If the student enrolls for more high school or college credits than are identified in the Running Start State Funding Limit Table, the student is responsible for:
 - 1) paying all college tuition and fees associated with exceeding the college credits identified in the table; or
 - 2) withdrawing from the excess college or high school classes
- The student is required to pay any class/lab fees charged for college course(s).
- Enrollment in specific college courses cannot be guaranteed- even if the courses are needed to fulfill district high school graduation requirements.
- If the student begins Running Start in winter or spring quarter, eligibility for the previous quarter(s) that year is forfeited.
- To add or withdraw from a course, the student must complete the college Add/Drop process by the college deadline and notify their high school counselor.
- The student is responsible for ensuring that college courses completed as part of the Running Start Program will meet high school graduation requirements.
- If the student plans to transfer, it is the student's responsibility to find out about admissions policies/deadlines and whether credits will transfer.
- The student gives permission for college staff to release grades to the high school and discuss various aspects of his/her participation with the high school/district officials.
- After completing the college coursework, students are responsible for requesting official college transcripts through the college's registrar office.

I acknowledge that I have read, understand, and comply with the conditions of Running Start participation and the expectations of college course enrollment.
